

THE FREEZE 12® ADVANTAGES

1. **FREEZE 12 is EPA SNAP acceptable subject to use conditions for mobile vehicle air conditioning.**
2. **FREEZE 12 is compatible with existing R-12 A/C components including hoses.**
3. **FREEZE 12 is sold nationwide insuring service availability across the country.**
4. **FREEZE 12 is non-flammable and contains no CFC's.**
5. **FREEZE 12 has been thoroughly field and laboratory tested.**
6. **FREEZE 12 is made from readily available raw materials.**
7. **FREEZE 12 is an ideal replacement for R-12 requiring no extensive training.**
8. **FREEZE 12 requires no system flushes or lubricant change. It works with the existing R-12 lubricant. Conversion simply requires different fittings and labels which are available through TCC. If the A/C system being converted is equipped with a High Pressure Relief Valve, a High Pressure Cutout Switch must also be installed in accordance with EPA SNAP regulations.**
9. **FREEZE 12 is the ideal replacement for older R-12 A/C systems that normally require expensive retrofitting to R-134a.**
10. **FREEZE 12 is competitively priced below R-12.**
11. **FREEZE 12 is lighter than R-12 therefore you will not have to use as much. Approximately 90% of the required R-12 charge is all that is needed.**
12. **FREEZE 12 is available in 12 oz. cans and 30 lb. cylinders.**
